

Environmental Resources LLC

PRODUCT DESCRIPTION : Palm Procurement and Supply

Environmental Resources LLC can supply a broad range of palm species in varying heights

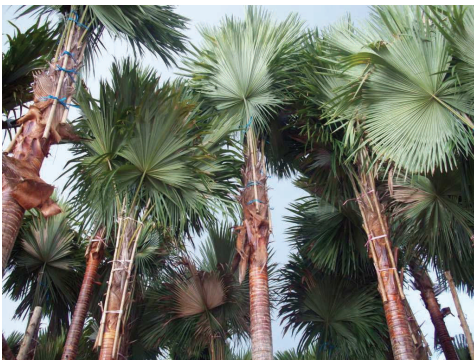

Our range of semi-advanced and advanced palms are grown in our nursery located in Malaysia.

With the establishment of our nursery in Al Madam, United Arab Emirates, shipping schedules can be customized or plant orders pre-delivered so that acclimatization can occur.

All palm shipments meet relevant export and import regulations.

Furthermore palms can be inspected and approved prior to shipping.

For further information on our products or your sport, landscape or agricultural applications please contact:
